to the POST-DISPATCH.
CITY, Mo., February 9.—The fol-

STATE OF MISSOURI, OFFICE OF
RAILROAD COMMISSIONERS,
ST. LOUIS, Mo., February 8, 1899. }

Commissioners deem it necessary to amend the act in relation to the carrying of freight loads applying to the rates of freights over railroads in this State, in the following manner: Amend section 831 of the statutes of Missouri, 1870, to read as follows: "The carriers of freight loads for the transportation of commodities and further provides that in said rates the haul shall be computed on one road to another." The act so amended shall not apply to the carrying of exempt roads in class C as described in §81 aforesaid, from the operation of the act, and it is further provided that the carriage of green points in this State shall be subject to the same rules and regulations as to interrupt such carriage from being treated as the carriage of commodities for transportation in this State, and such interruption may be made in good faith for any purpose, and without any liability for the interruption of carriage caused by the freight from a standard gauge road to a narrow gauge road, or the interruption of continuous car-

OF BENIS' LECTURE.

Addressed Last Night by a Large and Appreciative Audience.

A representative audience gathered last night to hear the lecture given by Prof. Benis' opening lecture in the library course. It included prominent men, lawyers, merchants, manufacturers, many ladies and a sprinkling of hand-workers. The subject,

He was treated in a clear and distinctive style, which seems to be characteristic of the lecturer. At the close of the sessions were asked, most of them for more information and others in a more spiritual. The information was given and what were the home thrusts were particularly wit and good nature. The satisfaction and enjoyment of the lectures a larger attendance at the Friday evening, which treats of the theory of rent taxation. In a number of requests admission to lectures will be allowed on payment.

Mayor City of St. Louis, who made out for Chief Huebler, who made out for Collector Sexton, who made out for the parties who broke the license of the parties in pursuance to the decision Judge Cady yesterday in the case of the parties. He held that his court could not annul the license of the parties on the premises as the only penalty for the violation of the license was the forfeiture of the liquor license. The Collector has the power to annul the license.

Stockholder's Suit—Material or a Damage Case—Notes.

William H. Steele this morning filed a peculiar suit against John H. Lewis, Alexander and William A. Lewis, Henry M. Bryan and

Henry Halliorth. The petition states that all the stockholders in the St. Louis Coffin Co., and the defendants are the directors of the company. When the company was organized by-law was adopted which stated that the salary of the President should not exceed \$100

annum; the secretary, \$1,000 per annum; traveling salesman, \$1,400 per annum; and the clerk, \$1,200 per annum. He stated that the above positions are the typical positions of profit which should be held by no one person should two or three men have complete control of the business. He was to be paid for defendant \$1,500 on salary account during the first year, and \$1,200 per annum thereafter. He did not hold any one of the positions provided for by the laws. In May, 1920, he was paid \$1,500 on salary account for 1920, a year. They also increased the salary of Secretary to \$1,200 per annum, although the law provided \$1,000. At his salary should not exceed \$1,000 per annum. He was required to pay back to the company, in the case of him, the amount of the salary account paid him in excess of \$1,000 per annum, in \$1,000.

Dr. J. W. Williams, of Williamson, Mo., president of the Missouri (Oliver street) Railway Co., was called to the stand by the State's attorney this morning. The doctor's buggy was struck by one of the defendant's cars, and he was injured. He stated that the jury evidently did not consider that he

He obtained only very few damages, three or four hundred dollars, and the other nine were for Dr. Williamson, but he was not allowed to sue for enough to pay for the repairs to his buggy, and the others would only consent to a verdict of one hundred dollars. The result was that all nine would have united in contempt of court, but for the doctor's unwillingness, but the three would not desert the defendant.

James Bond filed suit for divorce against his wife, Mrs. Mary Bond, on the 29th. She alleges in her petition that her husband struck and beat her and once broke her arm, and that he had been drinking and beating her sometimes for many years, prior to the date of the filing of the petition, and that she had been married to him for more than a year ago.

The court pro forma decreed of Incorporation of the Citizens' Club, and the President, Wm. W. Berry, Secretary, and D. C. Keefe, were appointed. The club is to be organized on the 1st of January, and to have on its state that the object of the club is to furnish the citizens of St. Louis with facilities for the improvement of their minds, bodies and physical cultivation. The initiation fee is \$1.00, and the annual dues \$2.00.

A judgment was rendered by default against D. C. Keefe for \$381.66 in favor of David B. Berry, and the judgment was affirmed by the court. Judgment by consent for \$500 was taken against the Citizens' Club, and the Citizens' Club was ordered to pay the same to the Citizens' Club, by next friend, against the Citizens' Club, for damages.

A judgment for divorce of James Buchner against Jennie Buchner, was begun on the 29th. The wife alleges that she is a negro, and which charges the other with adultery.

THE CARON SCORCHED.

His statements Arouse the Ire of Boston Irish-Americans.

Boston, Mass., February 9.—The Caron's statements before the Farrell Commission, which have aroused the hostility and indignation of Irish patriots with sundry secret meetings held in Boston and elsewhere, giving the impression that the Irish-American citizens were in league with dynamite, have been proved to be untrue. John Joseph Caron, Collector John Fitzgerald when interviewed, said:

"The evidence is that of a self-knowing man, a man of high ability and character, who in the past twenty-five years has succeeded in making his masters, evidently, it is to attempt to make the Carons, associates with the extreme wing of the movement, and to make them believe that they are not believed in physical force as the only means of attaining their ends."

use in which he wished to deliver a deadly blow to the church and then, knowing that a corroborative witness was not possible, he modified his attack so that it was addressed to a certain class of persons, and he made it a slur of phenomenal wickedness and depravity. Those conventions that he men- tioned in Philadelphia and Boston were ill-represented in their various com- mittees, priests, doctors, lawyers, mer- chants, etc. The same was true of the other cities, and the same was true of the whole country, which was represented at the National Democratic Convention presided over by Rev. Dr. Bette, the best of the old-fashioned Presbyterian clergyman in St. Louis. The atrocious system of paid spies, which we have already had in full operation in the "Catholic" and "Protestant" conventions, was also in full operation in the National Democratic Convention.

Ex-Senator Jones and the Informer.

"In connection with the matter Senator Jones said:
"I have made upon various occasions speeches upon, among other things, the rights of the native land, and they will show that I deprecated anything but constitutional measures to procure for the rights which I think the country ought to have."
"Who is the Dr. Carroll spoken of?"
"I only know of one Dr. Carroll in this country. He is a physician and lives in the city of New York, and a connection of the celebrated Carroll family of Maryland. I met him one summer at Newport, and never expected to see him again in the Irish cause."
"Did you know, Dr. Carson when he was rep?"
"I did not. I did not come to Detroit until Dr. Carson left, as I am now informed. I

ever heard of him until he began giving this
quitos testimony."

Annie Redmond's Abductors Arrested.

CHICAGO, Ill., February 9.—The police this
morning arrested Mr. and Mrs. Gurley, the
abductors of little Annie Redmond, who was
turned to her parents last night after nearly
year's absence. They were found in a house
near Thirty-second. Warrants have been issued for the arrest of Gur-
ley's father and mother.

SKIN, SCALP AND BLOOD

Diseases Cured by CUTICURA Remedies
When Hot Springs, Doctors and
All Other Medicines Fail.

Having been a sufferer for two years and a half from a disease caused by a bruise on the leg, and having been cured by the CUTICURA REMEDIES when all other methods and remedies failed, I deem it my duty to recommend them. I visited Hot Springs, N. H., and tried several doctors without success, and at last our principal druggist, Mr. John P. F. May (to whom I shall refer) gave me a good talk about CUTICURA, and I consented to give them a try with the result that I am perfectly cured. There now no sore about me. I think I can show the large

in the State. The CUTICURA REMEDIES are the blood and skin cure manufactured. I refer to doctor J. H. FINLEY, of the University of California, of this place, and to Dr. Smith of Lake Lee, Miss. ALEXANDER BEACH, of Greenville, Miss. Mr. Beach used the CUTICURA REMEDIES, as you request, with results as above stated.

SCROFULA 7 YEARS CURED.

I have been troubled with scrofula seven years, first started on the legs, my legs getting so bad, I was in bed for months, with constant itching, coming off dry scales and a watery liquid exuded from under my scales. I tried all the medicines I could get, but was unable to check it until I found your CUTICURA. I used one bottle of CUTICURA SOAP and one bottle CUTICURA RESOLV, completely cured me, my skin becoming perfectly clear and smooth.

SKIN DISEASE 5 YEARS CURED.
 YOUR CUTICURA REMEDIES did wonderful things for me. They cured my skin disease, which I had been five years standing, after hundreds of doctors had been spent in trying to cure it. Nothing did me any good until I commenced the use of your CUTICURA REMEDIES. Ourselves and family were without them.

The indications for twenty-four hours, commencing at 3 p. m. to-day, for Missouri are: Fair weather; warmer; winds becoming southerly.

THERE is no place in the South where the colored vote is suppressed in a more heartless manner than in a Republican nominating convention, or in the appointment bureau of a Republican Administration which owes its power to the support of more than a million colored voters.

The worst agencies for the encouragement of vice and crime are the pool-rooms and dice dens where boys are allowed to gamble. In point of demoralizing tendencies they are far more dangerous than men only are permitted to enter. Both of these classes of dens should be closed.

The Consul to Samoa or elsewhere, who, leaving his post and coming home, forgets his place and imagines himself called on to boss the State Department, should always be made an example of for the good of the service. The man who accepts an office resigns the citizen's privilege of criticizing, censoring and assailing the official action of his official superiors. Before assuming that privilege he should resign his office.

In the conference of legislative committees from interested States on the subject of the beef cattle and beef trade can arrive at a conclusion which will destroy the dressed beef monopoly without injuring the beef producers or consumers by discriminating laws, it will accomplish a valuable work. The subject is one that requires careful and wise treatment to avoid evils as great or greater than those which now afflict the public.

SECRETARY BAYARD's request for a truce and for a cessation of hostile activity by the German forces in Samoa during the proposed conference is fair and reasonable. If Prince Bismarck is honest in his expressed desire to settle the Samoan difficulties through diplomatic means, he will accede to it. The conference will be of little value if it does not settle the differences between the Germans and Samoans as well as the Germans and Americans.

THERE is said to be a movement among Southern Senators to have the local elections held separately from the Presidential and Congressional elections. The movement should be inaugurated and carried to a successful issue in every State in the Union. It would be a practical and valuable measure in the direction of reform.

The concerns of the United States Government are important enough to have one day devoted to them and to receive the undivided attention of the people. The influence of local questions often has a most deleterious effect on national elections.

REGARD FOR INDIAN RIGHTS

All the ends for which government was instituted in this country are at war with mountain land tenures which keep vast areas of fertile soil uncultivated, unimproved. Our fundamental laws forbid entailed land for a longer period than one life, and corporations with perpetual succession are permitted to hold only such limited parcels of land as are indispensable to their business.

The public policy which guides our land legislation aims at the division of the soil among actual cultivators. Even our loose land grants to railroads contain provisions which it was supposed would speedily secure the sale of the land in small parcels to cultivators.

If a dozen great corporations now hold Indian State patents to all the lands in the Indian Territory, and refused to sell or lease to actual cultivators, how long would such ownership be tolerated? Not longer than the time it would take to condemn and appropriate every foot of that land to public use by the ad quod damnum process. Who could contend that there is any breach of public faith or any violation of private right in such taking of land for public use? Every foot of land subject to such an exercise of the power of eminent domain. Why then should we permit a few bodies of men organized as Indian tribes to hold for all time, by a collective title adverse to individual ownership, a thousand times as much land as they ever expect to cultivate or improve?

Of all the mountain tenures abhorrent to our public policy and to the aims of republican government, the proposed tribal tenure of the Indian Territory in perpetuity is the worst conceivable. It means the withdrawal of that noble domain from the uses of civilization, and its dedication for generations to come to a vanishing race's love of idleness and solitude. It means a barren blank where a great State ought to be, and it is absurd to suppose that the American people will much longer tolerate any such barrier to their expanding civilization or any such blot upon the map of their country.

Our Government is under no pledge or moral obligation to maintain a guard of bayonets around this Territory and to protect the seclusion of its Indian inhabitants from the mighty pressure of a surrounding civilization. All that it can do, all that it is under any obligation to do, is to take care that they shall not suffer but be amply compensated for the necessity of yielding to an irresistible pressure and accepting the white man as a neighbor and fellow-citizen.

THE CLAYTON CONTEST

A Republican House would very promptly vacate Congressman BRECKINRIDGE's seat on the slightest evidence that his certificate was obtained by election frauds. It will be time enough for him to appeal to the people for a re-election when a House eager for another chance to put a Republican in his seat decides that he was not elected.

To resign now would be to repudiate the decision of the election officials of his own State. It would be a confession that the certificate had been wrongfully awarded to him, and that the district ought to be represented by a Republican. After such a confession it would be presumptuous on his part to try the race over again with any expectation of being elected, since his own action would be used against him as a corroboration of the charge that CLAYTON had been assassinated on his account or to cover up frauds of which he was the beneficiary. By retaining his seat he challenges his political enemies to do their worst in the way of investigating him and his election, and there need be no fear that they will neglect the opportunity to blacken him and his title to his seat.

Republican efforts to scare him into a resignation are evidently born of a fear that even a Republican House will be compelled to affirm his election. If the House were Democratic, the clamor for his resignation might have some excuse and pass for an appeal to his own sense of honor from the party interest that would sent him unfairly. But as matters stand the demand for his resignation is plainly made in support of a party interest that is more inclined to decide against him than in his favor, and his attitude is that of one who will not, when he can, avoid investigation by a prejudiced tribunal anxious to obtain party capital by aspersing him and his friends.

In to-morrow's SUNDAY POST-DISPATCH new and interesting light will be thrown upon the osculatory mystery which is exciting St. Louis at present; the record of the week's work for the POST-DISPATCH Parnell Fund will be told; all the news at home and abroad will be fully covered; brightly readable articles from the ablest writers on current topics will be given, and some special journalistic novelties of an entertaining nature will be made known. Those who fail to read to-morrow's paper will miss the cream of Sunday newspaper reading.

This Executive Board of the Irish National League of America, during its session in Cincinnati, endorsed the suggestion of the POST-DISPATCH that the parade on St. Patrick's Day be omitted this year for the purpose of giving signal aid and encouragement to the Irish cause. The board did not officially recommend the omission of the parade, but ordered the Secretary to request Irish organizations to give the suggestion earnest consideration. It would be a graceful and appropriate act on the part of all Irish societies.

MANAGER DURANT of the local Bell Telephone Co. made an interesting contribution before the Committee on Municipal Corporations at Jefferson City. He admitted that the company is paying dividends on heavily watered stock, and that the Boston parent company paid no taxes on the property in use in this State, for which it receives enormous rental. There is a hint for the Assessor as well as good ground for fixing a low maximum charge for telephones in Mr. DURANT's statements.

Ruled by Human Trash

From the New York World.
The Austrian succession has just been diverted from a Crown Prince, who, dived of his rank, would not be received in any respectable social circle in the United States, to a young man whose best quality is amiability, but whose brains, if reports are true, would be equal to the management of a truck park. The Emperor of Germany has an unpleasant record as a son and husband, and his course is a constant source of apprehension and uneasiness. The Emperor of Austria, on the other hand, is a man of a different type, a man of a different type, a man of a different type.

Farms Under the Hammer

From the Philadelphia Times.
The Reading Times, an able and earnest Republican organ, announces that the Sheriff of Berks will sell more farms in February than have been sold at any one time since the panic of 1893. What, what must be the dire straits of the county? It is not the result of panic, such as we had in 1873. It is taxation, and taxation only, that is depressing the value of our farms and lessening the reward of agricultural labor from year to year. The farmer is taxed, needlessly taxed, for almost everything he and his family consume. If he scans his dress, from hat to boots and from underclothing to overclothing, he is taxed for everything he wears; his wife and daughters are like living monuments of needless taxation. His house is taxed from cellar to garret; his barn is taxed from foundation stones to roof shingle; his land is taxed for everything he grows; his horse is taxed for everything he does; his dog is taxed for everything he does; his cat is taxed for everything he does; his pig is taxed for everything he does; his chicken is taxed for everything he does; his cow is taxed for everything she does; his sheep is taxed for everything he does; Chamberlain Park.

One Block North of Cabanne Station, on Line of Cable and Western Railroad.

If you want a home with comfortable surroundings, buy yourself a lot in this beautiful Park, where you have good streets, stone sidewalks and perfect drainage, also one of the prettiest "public schools" in the city. We have lots for sale on Barker avenue, Maple avenue, Park street, and Chamberlain avenues, at "cheaper" figures than any surrounding property where like improvements are made.

We have several photographic views, and can show the property without making special trips, unless desired. Come in and see us.
